BERTHOLD QUALITY

Ever since Hermann Berthold founded the company in 1858, the Berthold name has been synonymous with the highest standards of typeface design. Within every Berthold typeface, each character is crafted with the utmost attention to detail in order to achieve typographic and aesthetic harmony.

Without doubt that is why the Berthold name has endured for over 140 years despite the many fundamental changes in technology and type use.

Berthold Types, successor to this highly-regarded German foundry, has now released the complete *Berthold Exklusiv Collection*—700 of the most significant typefaces of the twentieth century, all on display within this catalogue.

Coordination of the meticulous standards and attention to detail in the production of these typefaces was largely the work of Berthold's former artistic director, Gunter Gerhard Lange, creator of many classics including Berthold Akzidenz-Grotesk Book, Berthold Bodoni Old Face and Caslon Book.

His colleague and eventual successor, Bernd Mollenstadt, contributor of Formata and Signata, rigidly maintained these high standards whilst directing the digitisation of the collection. Each typeface is now available in PostScript Type 1 format with full iso/Adobe character sets for both Mac and Windows platforms.

The *Berthold Exklusiv Collection* can be purchased at Fontworks' virtual store: www.type.co.uk or by contacting Fontworks' Sales Team.

The Berthold Exklusiv Collection which contains 724 typefaces, includes the 365 fonts marketed by Adobe as part of the Adobe Type Library but with different character sets for expert fonts and with Berthold BQ versions of the font software. Available as a collection on CD-ROM, it comes pre-licensed for twenty CPUs and two printers, for either Mac or PC at £3,495 or for both formats for £3,995 plus VAT.
